no! because of creative Scheme, retaliation that Knowingly interfered with Equal access to Courts.

This Society was Built on Violation of Human life. There is Still indifferences, even in high places. There is no Statute of limitation on murder in this Society, yet! many good old Status-quo practice - goes on and on. it's a System within a System that allowed Hypocrisy to continue without remedies.

If you do not believe that the death penalty is ever justified, why not (please write on back if more space is needed)? I was once a civil servant and always a hard worker. I experienced Law enforcement errors, and bias, as a witness at a crime scene, one of my ex-employee Rob my Twin Mother work place. The police came and searched me and my car, There was no Gun found on me, or in my car. Even though I had a legal right to have and own Guns. The fact that I told the police the person still inside. They ignored me, Then wayne coleman running out and Shooting at the police one officer, I thought Shot me two(2) times by accident in 1990, at my recent re-sentence forum, Deputy Robert Sallustio, stated in 2007, He directly shot me to made Sure I did not leave the scene. resulted, they directed many people to lie, with holding exculpatory evidence, illegally taken personal items in order to gain. said officials misconduct on record, they do not prosecute themselves. and when I Tried under civil remedy act. They illegally interfered, and continuously lying to the courts. The Broward State Attorney Michael J. Satz Knowingly help Cover-up, and when I bringing evidence to the court attention, He retaliated and direct Jail, and Prison officials not to fully accommodate my legal rights to redressing Grievances. I tried many times to exhaust the Administrative process, Creative bias encouraged people to deprived my basic needs, even inside The Court room the prosecutor assaited me on the witness Stand. and made it seems as if it was accident death penalty flaw

Have you ever attempted to commit suicide? No!

If you have ever attempted to commit suicide, was this pre-incarceration or during incarceration?

Do you want to be executed?

NO!

If so, why (please write on back if more space is needed)?

download from www.lancelot-armstrong.de

Would you prefer life without parole to execution?

That is not even a proper choice, especially for an innocence person.

Would you prefer life without parole to execution if the rest of your life was spent on death row rather than with the general population?

Why the Eye for a eye Scheme do not work for these good old hypocrities? Why officials allowed to Continuously Broken Constitutional Laws to increase execution of Black People, or making Sure many die in Prisons. Too many people wrongly loss their lives for these injustice to goes on.

If you do not currently want to be executed, did you ever want to be executed?

NO! I never wanted to be murder by a prejudice legal Process. Reality Check, History Shown that the Said legal System never ~~been~~ reformed, Thing Seems to moved to high level, Status-Quo.

If you wished to be executed at one point, what changed your mind (please write on back if more space is needed)?

The above is Contrary to my Spiritual believes.

"There Should be a meaningful Balance to remedy years of injustice, instead of allowing the Courts to help Circumventing Constitutional Laws, internation Laws, and otherwise, ethical values."

download from www.lancelot-armstrong.de

If you still want to be executed, when did you make this decision?

I always fighting for the Truth to be heard, not just the State's theory. We owe a duty to our fellowman to correct problems.

Have you waived your appeals?

No!

If you want to waive your appeals but have been unsuccessful, why is this (please write on the back if more space is needed)?

The State's employee indirectly assisted, and forced many people to accepted the above. "There is a wrong way, and a right way of doing anything."

Do other people on death row know you want to be executed?

I am a positive person, who assisted many people to doing what is right. So that negative thought is far from my heart.

If other people on death row know you want to be executed, do you believe that this has affected them in any way? On the flip side of the above issue, I saw stress made people to chased that path. And it affected many of us, and made it seems just and easier for Politician to continue said Scheme.

If you believe this has affected them in any way, how has this affected them?

I experience few people used our legal insight, not knowing there focus was to waive their legal rights. That practice hurt many of us, cause we care about humanity. Many innocent people on death row than officials stated.

If you are still appealing your case, do you think that you will ultimately succeed?

As the constitutional Laws stated, and the Florida Statutes under the color of Law, I am entitled to meaningful remedy. If State's employees did not Broken many Laws, they would not have to tried to cure the record, and thinking about the floodgate might being open.

If you are still appealing your case and think that you will succeed, why (please write on back if more space is needed)? (1). B.S.O. Deputy Robert Sallustri illegally Shot me. and lying to cover-up. (2). bias retaliation on those criminal acts. (3). The State's Prosecutional team knowingly obtained Sealed legal documents from Boston, mass. and leak legal record to the media. resulted, Prejudiced my cases. (4). The prosecution team with held exculpatory information from my cases, and from the courts. (5). prosecutor michael J. satz, assisted B.S.O. Attorney Lunch, to mislead the court. (6). Said State's officials Broken constitutional Laws to deprived my personal property and illegal disposed of some specifical Evidence which needed to seek relief remedies. (7). said States actors creative material and illegally Block some important materials from my Trial. These appointed Attorneys said those officials violaters are untouchable by the Law when it come to my cases. " Fact they illegally interfered within my injury case, Civil Rights issues, within the Broward County Court. Even the Judge said He do not wanted to dictate how the above violaters runs their institution. resulted, made matter Worst. Even the courts keep changing their Ruling at times, causation of errors, and continuous misconduct. There is additional claims that pending, which entitle promised remedy.

If you are appealing your case and think that you will not succeed, why not (please write on back if more space is needed)? The way the Supreme Court of Florida allowed State's violaters to try cure the record, on circumventing legal duty within these death penalty cases, and otherwise. ignored rules of procedure, Broken Said Constitutional Laws. Tried to cover-up entry of third parties interference with pending cases, resulted, said State of Florida gain from these Criminal misconduct. that caused Conflict of interest when said violaters on the prosecution team. Fact that we must complaint to said violaters first before we can proceed in courts. once we exhaust Administrative - remedies, on failure to correct problems. " why the bias good ole status-quo practices causation of good people to ignored Some people legal rights ??? enough material fact shown why the death penalty is prejudice in my case, and others.

Further Thoughts/Reflections:

Throughout History, many officials putting less values on Black people life. Those areas need to redressing, before State's employees Continuously misleading Societies, and the Courts to Justified indifferences. which is contrary to State's Laws, and Federal Laws.

There was many investigation happened, where officials tried to order others to ignored constitutional Laws, and Court orders that compelling Compliance.

Fact that Law enforcement duty, is to follow all aspects of constitutional Laws, especially obligation to obey their oath of duty.

I genuinely stated the above, causation of officials knowingly Breach of legal obligation, Said bias practice Prejudiced my Cases, and equal access to courts, Said arbitrary States-quo. by the Court to allow violaters to circumvent Promised guaranteed rights, Only allowed injustice to go on and on.
